Appraisee Rating

- a) For goals where numerical values are used as targets, the number achieved from the start of the contract period to the end of the particular quarter is directly used to calculate the percentage ratio.

In this example.

- 6 practicals were conducted in Q1 against an annual target of 63. Thus rating = $6/63 = 9.52$ (approx. 10%).
- 5 trees were planted against an annual target of 30, rating is $5/30 = 16.7$ (approx. 20%)

Note: It is possible to obtain a rating over 100% if the achievement value surpasses the target value. Capped at 125%.

All your goals should have a rating and a comment

In this case, you will enter the actual percentage of completion of the project at the end of each quarter. In the 1st quarter it may be at say, 25% . This is basically a variation of case (a).
- d) You may also have other ratings like a “rank”, “score”, etc. They should be converted to their percentage equivalent of the achievement in comparison to the target.

Second Quarter (Q2) and Subsequent Quarter Reporting

- a) The *Apraisee Rating* is a record of the cumulative achievement that considers the current quarter of reporting plus the achievement in all other preceding quarters. For numerical targets, this is a simple addition of all quarterly achievements to date and calculating the percentage ratio against the annual target.
- b) For goals showing percentage compliance in undertaking duties, the mean achievement since the beginning of the contract period should be carried through the quarters

Quarterly Reporting (Cont.)

- c) For indicators of percentage completion, the progressive attainment of the target towards the target (e.g. 100%) should be reflected in the achievement, say 50% for 2nd quarter, 80% for 3rd quarter, and 95% for 4th quarter if that is the case. This is basically a variation of case (a).
- d) For “rank”, “score”, and similar metrics, the latest percentage equivalent of the score/ rank should be carried through the quarters

3rd Quarter and 4th Quarter (Annual) Reporting

- The procedure is repeated at the end of each quarter
- Q3 due from 31st March. Q4 due from 30th June
- Q1 can only be entered after Goal Plan is submitted
- Q2 can only be entered after Q1 is submitted, and so on
